# Woodard

Caribe... Woodard's new sun-and-showers wrought iron furniture... which stays out in all kinds of weather. No lugging it into shelter whenever storm clouds appear in the sky. The table tops are a wonderful smoky slate. The chair seats and backs are white, woven cotton yacht cord (which dries in no time at all). Also available with steel mesh seats and backs... with or without quilted foam rubber pads. Parkerized, as is all Woodard furniture, for rust-protection.

## ESSENCE FIRE TABLES

### ALUMINUM

Fire being the principal element followed by a table that is as striking as it is useful. This 8 table collection designed by Site Li, is a testament to form-following function. Lower than our typical fire tables, Essence is perfect for anchoring one of our many lounge collections. NexTeak options are available in square and rectangle and in both natural and bark finish. Aluminum solid and shelf are available in both square and rectangle and in 19 beautiful finishes.

Fire table burner covers are included with each fire table. All fire tables come with black beads unless otherwise specified. All fire tables have propane hook-ups with natural gas converters.

WHAT IS COVERED

We warrant to you, the original purchaser that with the exceptions stated below, the furniture you have selected is free from defects in material and workmanship. Straps, slings, and cushions are warranted based on quality of workmanship, not fading, discoloration, mildew resistance or stretching.

HOW LONG DOES COVERAGE LAST

STRUCTURAL

This limited structural warranty lasts for a period of fifteen (15) years for Aluminum and Iron, three (3) years for Woven and five (5) for NexTeak from the date of delivery of the furniture to you ("Warranty Period"). Coverage terminates if you sell or otherwise transfer the furniture or have unauthorized repairs or alterations done to the furniture during the warranty period. Products approved for use in commercial applications will be covered under the current Contract Warranty Period of five (5) years for Aluminum and Iron, three (3) years for Woven and five (5) for NexTeak from the date of delivery.

FINISH

This limited finish warranty lasts for a period of seven (7) years from the date of delivery of the furniture to you ("Warranty Period"). Coverage terminates if you sell or otherwise transfer the furniture or have unauthorized repairs or alterations done to the furniture during the warranty period. Products approved for use in commercial applications will be covered under the current Contract Warranty Period of five (5) years from the date of delivery.

CUSHION

This limited cushion warranty lasts for a period of one (1) year from the date of delivery of the furniture to you ("Warranty Period"). Cushion warranty covers workmanship of the cushion itself and the filler for one (1) year. Fabrics may be covered under a separate warranty by the fabric manufacturer. If a fabric is deemed defective after the one (1) year cushion warranty by the fabric manufacturer, cost for replacing the cushion, less the fabric charges would be your responsibility. Coverage terminates if you sell or otherwise transfer the furniture or have unauthorized repairs or alterations done to the furniture during the warranty period. Products approved for use in commercial applications will be covered under the current Contract Warranty Period of one (1) year from the date of delivery.

PARTS

Certain parts, such as recliner mechanisms, fire table burners, hardware, etc., only carry a one (1) year warranty.

WHAT IS NOT COVERED

This warranty does not cover and is void if damage is a result of freight/shipping, a failure caused by unreasonable or abusive use, acts of God, improper care, freeze damage, mildew, normal wear, fading or stretching of fabrics and vinyl straps, glass breakage, glides or if the furniture is used for commercial purposes (except where noted) or if the customer fails to provide reasonable and necessary care as outlined in the product information brochures.

NEXTEAK

This warranty does not cover fading, discoloring, staining, or scratching. Exact color match is excluded for replacement pieces.

GENERAL EXCLUSIONS

Cast aluminum frames and components may exhibit surface imperfections that are a natural result of the casting and/or finishing processes. Salt air and salt water may cause powder blistering/oxidation. Minor variations in finish color and texture. Marring, scratching, or rust related to stacking of frames. Discoloration/fading/staining due to chemicals/cleaning products/suntan lotion. Product sold by dealers "as is" is not covered.

WHAT WOODARD WILL DO

FRAMES

If within the Warranty Period, your furniture fails structurally or if the finish cracks, peels, or blisters, Woodard will, at our option, repair or replace the frame in the original color and style. Please note that it is at Woodard's discretion as to whether the original defective piece is required to be sent back or not.

STRAPS

If within the Warranty Period, the strap breaks or pulls out of the frame within three (3) years from date of delivery, Woodard will send a replacement strap(s) directly to you upon receipt of the defective item(s). Please note that it is at Woodard's discretion as to whether the original defective piece is required to be sent back or not.

SLINGS

If within the Warranty Period, the sling breaks or pulls out of the frame within one (1) year from date of delivery, Woodard will send a replacement sling(s) directly to you upon receipt of the defective item(s). Please note that it is at Woodard's discretion as to whether the original defective piece is required to be sent back or not.

In the event that a frame finish, style or fabric has been discontinued, we reserve the right to substitute the defective frame, sling or cushion in a similar style or color at our option. Please note, because iron is made from steel, small amounts of rust seepage may appear when used outdoors, mainly in the joints and crevices. This seepage is normal and is not covered under warranty. Regular maintenance (e.g. cleaning the furniture, touching up nicks and scrapes) must be exercised.

Spot wash by sponging briskly with a mild soap in lukewarm water (do not exceed 100°F). Thoroughly rinse with clean water to remove soap. Allow to air dry completely before storing.

Insect repellents and suntan lotions can reduce the life of fabrics, accelerate fading and stain fabrics. To avoid damage, wipe clean with mild laundry detergent and warm water. Do not use bleach or harsh detergents under any circumstances.

DO NOT USE STEAM. Acrylic fibers are made of 100% acrylic fiber and are thermoplastic or heat sensitive. When spot washing, use lukewarm water (under 100°F) and allow to air dry. Do not use solvents, carbon tetrachloride, scouring agents, bleach, janitorial cleansers, gasoline or brushes.

VINYL STRAPS

Clean with mild laundry detergent and warm water. Strap contains an effective fungicide and UV stabilizers.

To remove scuff marks on vinyl straps, apply toothpaste or gentle abrasive to a clean, dry cloth and rub gently. To remove mildew, use a solution of warm water, mild laundry detergent and chlorine bleach (no more than 1/4 cup to three gallons of water). Never use a solvent-type solution.

Insect repellents and suntan lotions can reduce the life of vinyl plastic, accelerate fading and stain straps. To avoid damage, wipe clean with mild laundry detergent and warm water.

DO NOT USE solvents, scouring agents, carbon tetrachloride, undiluted bleach, janitorial cleansers or gasoline. If in doubt about using a detergent, choose an inconspicuous area and test the cleaner.

IRON FRAMES

Clean with warm soapy water. Damage to the paint finish may cause corrosion; touch up with paint immediately. To maintain the gloss on non-textured finishes, protect with a fine automotive wax.

Woodard's multi-step finishing process results in a stain-resistant finish. Severe stains may require light sanding and touch-up painting.

The finish on Woodard furniture is formulated and baked on to make it highly resistant to repellents and lotions. However, to avoid discoloration, clean metal parts of these products frequently.

Frame finish touch-up instructions: When covering small spots of surface rust, clean area by sanding lightly and wipe immediately to prevent rust. When preparing scratched areas for touch-up painting, rub lightly with fine steel wool to smooth the surface and improve paint adhesion. Apply thin coats of touch-up paint and allow ample drying time between coats.

HDPE WICKER WEAVES

For best results, clean regularly with mild detergent and warm water. Cleaning will help prevent mildew by washing out dirt particles that may become trapped. Shake out excess moisture after rinsing and allow to dry thoroughly before storing.

Clean with a solution of warm water, mild laundry detergent, and chlorine bleach (no more than 1/4 cup to three gallons of water). Never use a solvent-type solution.

Insect repellents and suntan lotions can reduce the life of the weave material, accelerate fading and stain fabrics. To avoid damage, wipe clean with mild laundry detergent and warm water.

DO NOT USE solvents, scouring agents, carbon tetrachloride, undiluted bleach, janitorial cleansers or gasoline. If in doubt about using a detergent, choose an inconspicuous area and test the cleaner.

NEXTEAK

NexTeak requires no staining, painting or weatherproofing. It is highly resistant to alcohol, juice, and coffee spills under normal conditions and does not stain from normal household liquids. Cleaning is simple - a mild soapy solution is usually sufficient to remove dirt and debris.

Oil stains can be removed using non-abrasive cleaners.

Scratches and scuffs can be easily repaired using a scouring pad and sanding lightly with the grain.
